Personalized Calendar Chatbot

About

This is a personalized calendar chatbot powered by NLP model and OpenAI's GPT-3.5 language model. It can assist you with various tasks related to your Google Calendar.

Some of the things it can do for you:

- Get the events on a specific date from your Google Calendar.
- Create a new event in your Google Calendar.
- Delete an event from your Google Calendar.
- Get free/busy information from your Google Calendar.
- Update an existing event in your Google Calendar.
- Reschedule an event in your Google Calendar.

Feel free to interact with the chatbot using the input field on the left. Type your messages, and click the "Send" button to chat with the chatbot.

Please note that the functionality of the chatbot is limited to the Google Calendar operations mentioned above.

For any questions or feedback, you can contact the developer at onenishitrathod@gmail.com.
